PROFESSIONAL SUMMARY

Recent Computer Science and Engineering graduate with hands-on experience building backend projects using Python, Django, and Django REST Framework. Familiar with REST API development, JWT authentication, SQL databases, Git, and Linux. Passionate about learning backend technologies and eager to contribute as a Backend Developer Intern.

EDUCATION

B.Sc. in Computer Science & Engineering

European University of Bangladesh

Graduated: May 2025 | CGPA: 3.76

Key Coursework: Python, OOP, Algorithm, Software Management, Problem Solving

Diploma in Computer Science Engineering

Ideal Institute of Science & Technology

Degree Completed: July 2019 | CGPA : 3.71

Key Coursework: Programming Languages, Data Structures

TECHNICAL SKILLS

Programming Languages: Python, SQL (Basic), Modern JavaScript (ES6+)

Backend Development: Django, Django REST Framework (DRF), REST API Development, REST API Design, Serializers, ViewSets, Routers

API Testing: Postman, REST API Testing, JSON Data Validation

Frontend: HTML5, CSS3, React (Basic)

Database: PostgreSQL

Version Control & Tools: Git, GitHub, VS Code

Operating Systems: Linux (Ubuntu), Windows

PROJECTS

- [booknest-django-api](#) | [Live Link](#)

Built a RESTful bookstore API using Django REST Framework with JWT authentication and Postman testing.

- [django-task-management-system](#) | [Live Link](#)

Developed a Django-based task management application with authentication, CRUD operations, and task tracking.

- Language Proficiency: IELTS: 6.0
